Logo design - Patetrn

Mr.Martín García García

Logo design - black and white

We propose a logo design that uses a two-square layout for the text portion and the logo icon portion. The logo icon is based on the motif of the black keys of a piano and represents the three elements of “MARTIN,” “GARCIA,” and “GARICIA. The entire logo is composed of squares. Since the logo as a whole is composed of squares, it can be combined to form a pattern.

Two square elements
